CONTENTS VOLUME 46, 1980

Obituary

H.E. Hurst, D.Sc., C.M.G. (1880–1978)
J.A. Cole (Marlow, Great Britain) 1

Research Papers

Stochastic synthesis of hydrologic data based on concepts of pattern recognition, I. General methodology of the approach
U.S. Panu and T.E. Unny (Waterloo, Ont., Canada) 5
Welsh floodplain studies, II. Application of a qualitative inundation model
J. Lewin and D. Hughes (Aberystwyth, Great Britain) 35
A practical model for linear and nonlinear runoff
W.F. Rogers (Omaha, Nebr., U.S.A.) 51
A generalized probability density function for double-bounded random processes
P. Kumaraswamy (Poondi, India) 79
Interpretation of recession flow
M.G. Anderson (Bristol, Great Britain) and T.P. Burt (Huddersfield, Great Britain) 89
Hydrology of the Nahanni karst, northern Canada, and the importance of extreme summer storms
G.A. Brook (Athens, Ga., U.S.A.) and D.C. Ford (Hamilton, Ont., Canada) 103
The North Maroondah Experiment Pretreatment Phase comparison of catchment water balances
K.J. Langford, R.J. Moran and P.J. O'Shaughnessy (Melbourne, Vic., Australia) 123
Rainfall interception in a forest stand estimated from grassland meteorological data
A.J. Pearce (Christchurch, New Zealand), J.H.C. Gash and J.B. Stewart (Wallingford, Great Britain) 147
The distribution of hydrologically effective rainfall incident on sloping ground
D. Sharon (Jerusalem and Beersheba, Israel) 165

Technical Note

Automatic measurement of soil-water pressure using a capacitance manometer
J.-L. Thony and G. Vachaud (Grenoble, France) 189

Research Papers

Stochastic synthesis of hydrologic data based on concepts of pattern recognition, II. Application of natural watersheds
U.S. Panu and T.E. Unny (Waterloo, Ont., Canada) 197
Stochastic synthesis of hydrologic data based on concepts of pattern recognition, III. Performance evaluation of the methodology
U.S. Panu and T.E. Unny (Waterloo, Ont., Canada) 219
Adaptive Fourier analysis of periodic–stochastic hydrologic sequences
Z. Şen (Istanbul, Turkey) 239
Critical drought analysis of periodic–stochastic processes
Z. Şen (Istanbul, Turkey) 251
Regional drought and flood frequency analysis: theoretical consideration
Z. Şen (Istanbul, Turkey) 265
A non-Gaussian Markovian model to simulate hydrologic processes
L. Valadares Tavares (Lisbon, Portugal) 281

A finite-element model for concurrent confined–unconfined zones in an aquifer
K. Elango and K. Swaminathan (Madras, India) 289
Simulation of the effects of transpiration losses from the unsaturated zone on seepage from a soil slope
P.A. Kilpatrick (Stellenbosch, South Africa) 301
Effective and bankfull discharges of streams in the Yampa River basin, Colorado and Wyoming
E.D. Andrews (Lakewood, Colo., U.S.A.) 311
Chemical and sediment mass transfer in the Godavari River basin in India
G. Bikshamaiah and V. Subramanian (New Delhi, India) 331
The interpretation of tritium in the Chalk unsaturated zone
S.S.D. Foster and A. Smith-Carington (London and Wallingford, Great Britain) 343
Influence du climat, de la température sur la teneur en HCO_3^- et H_2CO_3 des eaux souterraines (Effect of climate and temperature on the amount of HCO_3^- and H_2CO_3 of groundwaters)
H.J. Schoeller (Bordeaux, France) 365

Technical Notes

Pyranine used as a fluorescent tracer in hydrology: pH effects in determination of its concentration
M. Launay, M. Tripier, J. Guizerix (Grenoble, France), M.L. Viriot and J.C. André (Nancy, France) 377
An automatic electrical resistance soil-moisture measuring system
T.H.L. Williams (Lawrence, Kans., U.S.A.) 385

Forthcoming Events 391

Contents Volume 46, 1980 395
